National Quality Standard

Updated August 2019

The National Quality Standard and Quality Improvement

The National Quality Standard is the standard against which providers self-assess the performance of their service/s in delivering quality education and care, and plan future improvements to their service/s. One result of this process is a Quality Improvement Plan (QIP).

The Education and Care Services National Regulations 2017 (the National Regulations) require approved providers to prepare a Quality Improvement Plan (regulation 55) for each service that:

- includes an assessment by the provider of the quality of the practices of the service against the National Quality Standard
- and the National Regulations; and
- identifies any areas that the provider considers may require improvement; and
- contains a statement of philosophy of the service.

The National Regulations do not prescribe a format for a Quality Improvement Plan. The purpose of this template is to offer a format that supports approved providers to meet their obligations under the National Regulations.

Approved providers also have an obligation (r56) to review and revise the Quality Improvement Plan at least annually, having regard to the National Quality Standard.

A Quality Improvement Plan must be reviewed and/or submitted to the Regulatory Authority on request. The National Regulations do not prescribe a format for a Quality Improvement Plan.

Approved providers also have an obligation (r56) to review and revise the Quality Improvement Plan at least annually, having regard to the National Quality Standard. A Quality Improvement Plan must be reviewed and/or submitted to the Regulatory Authority on request.

About the ACECQA Quality Improvement Plan template

The purpose of this template is to offer a planning format that supports approved providers to meet their obligations under the National Regulations.

This template provides quick links to helpful resources for each quality area in the [Guide to the National Framework](#) and the [ACECQA website](#).

Exceeding NQS themes guidance

The Exceeding NQS sections provided for each Standard should only be completed when there is evidence of one or more Exceeding NQS themes impacting on practice at the service.

When the QIP is submitted to the Regulatory Authority for assessment and rating, an authorised officer will consider how the evidence documented impacts on practice, to determine if the Exceeding NQS themes are being met.

Additional information about your service

The following information will assist the Regulatory Authority to plan the assessment visit.

Additional Information

Raukkan Aboriginal School (RAS) Child Parent Centre (CPC) is located on the school site in a designated area. The CPC incorporates Occasional Care, Aboriginal 3 year old preschool program, and 4 and 5 year old program. Our preschool program acknowledges, celebrates and embraces being Ngarrindjeri through the inclusion of Ngarrindjeri language and cultural learning activities.

In 2018 the CPC was located within a temporary setting while an upgrade to facilities occurred to the Preschool.

The current enrolment numbers for the Preschool program is 8

- 3 children in the 4 and 5 year old program
- 2 in the Aboriginal 3 year old program
- 3 children who access Occasional Care.

The RAS site is located within the Raukkan Aboriginal Community on the traditional lands of the Ngarrindjeri people, and is described as an 'Ancient Meeting Place'. It is an historically significant place in Australian history which has been celebrated Australia-wide on the \$50 note. However, due to many significantly negative and invasive historical events that have affected the community Raukkan is a community that has experienced high levels of generational disadvantage and trauma.

The CPC is a Category 1 Index of educational disadvantage Department for Education site (category 1 being the most educationally disadvantaged sites).

100% of children who attend Raukkan CPC are Ngarrindjeri and are also identified as English as an Additional Language or Dialect (EALD) children who speak Aboriginal English.

We provide a team around the child approach to support children's individual needs. It is mandatory for all schools and preschools in South Australia to develop for all Aboriginal children in partnership with parents/caregivers/case workers an individual 'One Plan'. The plan includes accommodations and interventions to support each child's needs.

Being a school based CPC provides us with many opportunities to work collaboratively across the Preschool and Junior Primary to provide a more seamless transition into school.

How are the children grouped at your service?

According to age in the following groups:

- Occasional Care
- Aboriginal 3 Year Olds
- 4 and 5 Year Olds

Service statement of philosophy

Please insert your service's statement of philosophy here.

Our vision for children's learning is to provide opportunity and support to meet the highest expectations of individual children's development and learning.

RAS CPC is a Ngarrindjeri focused early learning preschool site who work in partnership with families and the Raukkan community to reflect the values of the community in all its diversity and acknowledge the traditional custodians of this land, the Ngarrindjeri People. We believe that building authentic relationships and partnerships with families and their community supports children to achieve their goals. We endeavour to create a nurturing, holistic, inclusive and integrated approach to education and care; we provide a play-based curriculum in an exciting and flexible setting and are working towards embedding Nature Play within our program. We are here because we want to make a difference by creating stability and a nurturing, thriving environment for children.

Educators promote children's learning by planning and implementing a program that provides opportunity for children to learn through play, intentional teaching and spontaneous learning experiences. The program is aligned with the National Quality Standards and is reflective of the Early Years Learning Framework (EYLF). Children are encouraged and supported in working towards the EYLF learning outcomes by developing their skills and reaching their individual potential. Educators collaborate with other professionals within the community and local partnership group to ensure the best outcomes for individual children and families.

Our educators provide an environment that is secure and predictable, where children can explore and investigate. The learning environment values cultural and social diversity and provides continuity of learning. The environment demonstrates flexibility and is inclusive of indoors and outdoors opportunities, providing a balance of stimulating and quiet experiences that reflect children's interests, strengths and needs. Learning areas foster the safety, health and wellbeing of each child. The environment supports individuals and families to develop their wellbeing and self-confidence.

Our team are committed to providing the highest quality care and education and are consistently working towards continuous improvement in all areas of early education and management.

Quality Area 1: Educational program and practice

This quality area of the *National Quality Standard* focuses on ensuring that the educational program and practice is stimulating and engaging and enhances children's learning and development. In school age care services, the program nurtures the development of life skills and complements children's experiences, opportunities and relationships at school, at home and in the community.

Additional information and resources about Quality Area 1 are available in the [Guide to the National Quality Framework](#) and on the [ACECQA website](#).
